PREFACE

MOLEKUL, a scientific journal in chemistry, constantly publishes articles related to the chemistry of regional focus and are related to the environment or natural products of Indonesia. We published the journal in electronic version at the website of www.jmolekul.com, which was indexed by SCOPUS, CAS (Chemical Abstract Service), ASEAN Citation Index, DOAJ, CrossRef and Sinta.

In this volume 15 issue 1, the high light research including natural products of Indonesia of Ipomoea batatas L for diabetes mellitus. This volume also reported the synthesis of anticancer drugs using computational models (2,4-Substituted Furo [3,2-B] Indole derivative and 1,3,5-Triaryl Pyrazole) or in vitro using chalcone derivative component of 2’-hydroxy-2-bromo-4,5-dimethoxychalcone.

We would like to thank all authors and reviewers for their contributions.
